IN4PAR

Prepared for Robert Saffold Jr. · Robert C. Saffold Sr. Foundation, Inc. · October 17, 2026

A setup you can run for the Foundation, the Tournament and T-Time

Built by In4Par, operated by you, with help available when you want it.

Robert, thank you for the letter and the flyers. You said you were not sure how I could help, and that you want something practical you can maintain yourself. Here is the plain answer. I can make it easier for people to act when you invite them to support the Foundation: a clear place to register, sponsor, donate or volunteer, and a simple way for you to see who responded and who needs a follow-up. I will set that up, show you how to run it, and hand the everyday work to you.

Three things change for you:

- **People can follow through.** Current links, one set of tournament details everywhere, and clear ways to take part.
- **You can keep track.** One list of players, sponsors, volunteers and donors, with each commitment and the next step recorded.
- **You can operate it.** Training on your own setup, permissions that fit your role, and a short illustrated guide.

T-Time is the growth piece: your calendar idea becomes something organizers can submit to and golfers across Florida can use.

WHAT GOLFERS ENCOUNTER TODAY

Four tournaments, fifty students to the Florida Classic and a backpack drive with the mall give the Foundation a story to tell, alongside your father's two Hall of Fame inductions. I checked how that story reaches a golfer, sponsor or grant officer on October 16, and these are the fixes:

- **The flyer reaches registration; the public links need updating.** The QR code reaches the current page. That page is set to unlisted, and the links on Facebook and the Sebring Chamber still point to the 2024 BirdEase page, which now says "Unpublished Event." A golfer who searches "Saffold golf tournament" lands on a third-party listing that names the wrong course.
- **The page and the flyer give different details.** The page retains 2025 text and settings: the text says May 9 where the header says May 8, the start time is set to 10 AM instead of 8 AM, the team price switches from $330 to $360 on April 2 while the flyer says $330, there is no $100 day-of price and no two-for-one package, the hole-in-one copy says $20,000 where the flyer says $5,000, registration closes May 3 where the flyer says May 1, donations are switched off, and the confirmation email begins "Dear Sponsors." As of October 16 the page showed zero online registrations since May 13.
- **The Foundation needs a central place for people to get involved.** The audit found no website, Google Business Profile, email signup, contact form or volunteer form, and three different addresses and phone numbers across directories.
- **T-Time has an open lane.** The search for "black golf tournaments Florida calendar" found individual events but no statewide calendar. The association your father helped found in 1972 lists seven affiliate clubs; their events are a starting point for T-Time's first listings and partner invitations.
- **Two grant deadlines give us dates.** Walmart's local grant cycle closes November 30, 2026. The Elks National Foundation grants through Sebring Lodge #1529 close January 20, 2027.

> **One small thing first, at no charge.** John Simpson's new Hall of Fame inductee page lists your father, Class of 1996, with the words "Record incomplete." I built that page for John. Send me one photograph and three sentences about your father and I will have his record completed and confirmed with John this week. It costs nothing, and it gives every piece that follows a Hall of Fame page to point to.

THE RECOMMENDED SETUP

GolfStatus stays for tournament registration, pairings, scoring and the day itself; it is free to qualifying nonprofits apart from transaction fees, and it already holds your packages. Around it, I build your working system on the In4Par platform:

- **Your website** on a domain registered in the Foundation's name: Home, About, Programs, Tournament, T-Time, Donate, Contact. You edit the pages yourself after training.
- **T-Time** as an event list on that site. Organizers submit events through a form; you review each one and publish it.
- **Donations** through a nonprofit giving platform in the Foundation's name, with receipts sent automatically and payouts to the Foundation's bank account.
- **Your contact list and follow-up board.** Every player, sponsor, volunteer and donor in one place, with a board that shows who has been asked, who has committed and who needs a call. Registrations and donations are brought in from GolfStatus and the giving platform by file; I show you how.
- **Email and text templates** for confirmations, reminders and thank-yous, sent from the Foundation's own address and number.

Who owns what: the Foundation owns the domain, the giving account and every contact and page you create. In4Par administers the platform account that hosts the site and the list, which is what the monthly fee covers. Your contact list is exportable at any time.

WHO DOES WHAT

IN4PAR	YOU, AFTER THE HANDOFF
Builds the site, the T-Time list, the forms, the follow-up board and the templates	Update pages and event details
Fixes the GolfStatus page and the public links	Review T-Time submissions and publish them
Sets up the domain, email, giving account and text messaging in the Foundation's name	Keep contacts current and record each commitment
Trains you in two sessions and leaves an illustrated guide with account and renewal details	Send communications from the templates
Supports you for thirty days after launch, then provides basic technical support under the monthly plan	Approach sponsors, follow up with volunteers, and decide the next action

Training makes those tasks realistic: we do each one together on your own setup before I step back. Registrations, sponsorships and volunteer sign-ups are the goals the setup serves; the asking is yours, and I can take on parts of it by separate agreement.

THE PLAN

Phase 0
THIS WEEK, NO CHARGE

Make the next step clear for golfers. Complete your father's Hall of Fame record with John. Work through the GolfStatus findings, align the page with your flyer, make it public, switch donations on and write a player confirmation email. Correct the Chamber listing, the third-party listing and the Facebook links, with one set of contact details and the P.O. Box used for mail.

Phase 1
OCTOBER 26 TO NOVEMBER 20, SETUP

Give the Foundation a home. Domain, website, forms, contact list and follow-up board, giving account, email on your domain, text messaging registered to the Foundation, and Google Analytics so you can see what works. A Google Business Profile, subject to eligibility and verification. We file the Walmart grant before November 30 and submit the Google for Nonprofits application. Dates depend on receiving your logins and the determination letter in the first week.

Phase 2
NOVEMBER 23 TO JANUARY 15, SETUP

Launch T-Time for the Expo. The African American Golf Expo runs January 24 to 28, 2027 in Orlando, alongside the PGA Show, our target launch. I review the site your developer built and either connect it or bring T-Time onto your new site, whichever serves you better once I have seen it. We add the submission form, confirm details with Florida organizers for the first listings, invite the statewide association and its seven listed clubs as founding partners, and prepare a printed calendar. Training and the guide are delivered here, followed by thirty days of handoff support.

Phase 3
JANUARY TO MAY 8, YOUR OPERATION

Fill the field and the sponsor board. You run the two-for-one push before January 31, the sponsor asks, the volunteer sign-ups and the player reminders from the templates and the board. I prepare the Elks application with you before January 20. If you want hands-on help with any of it, such as building the sponsor list, running the outreach or entering T-Time events, we agree the scope and fee for that piece separately.

WHAT I NEED FROM YOU

- A photograph of your father and three sentences for the Hall of Fame record.
- Logins for GolfStatus, Facebook, Canva and the T-Time site, and your developer's name.
- The IRS determination letter and EIN, for the applications and the text messaging registration.
- Two training sessions in January, and a card on file for the domain in the Foundation's name.

INVESTMENT

Phase 0: Hall of Fame record, GolfStatus repair, directory cleanup	**No charge**
Phase 1 setup: website, forms, contact list, giving account, email, texting, analytics	**$950 once**
Phase 2 setup: T-Time launch for the Expo, partner invitations, printed calendar, training and guide	**$1,450 once**

PAY $950 FOR PHASE 1 SETUP

PAY $1,450 FOR PHASE 2 SETUP

Setup total	**$2,400**
In4Par platform access and basic technical support: hosting the site and the list, keeping the sending set up, and help by email or text when something stops working	**$97 a month**

START THE MONTHLY PLATFORM, FIRST 60 DAYS INCLUDED

Additional hands-on help: event research and entry, sponsor outreach, volunteer recruiting, grant writing, campaign management	**Scoped and priced separately**

Each button opens a secure Stripe page that shows the exact terms before you confirm. The monthly plan is a recurring charge that begins sixty days after you sign up and continues until you cancel. Billed separately at cost: the domain (about $10 to $19 a year, in the Foundation's name) and text message carrier fees (a few dollars a month). The giving platform and Google for Nonprofits are free to eligible organizations, with optional donor tips on gifts. If you would rather tie hands-on sponsor work to results, the option is 10% of new sponsorship dollars in place of a fee for that work, with the scope agreed in writing first.

NEXT STEP

Send me the photograph and three sentences, and I will begin with your father's Hall of Fame record at no charge. When the plan reads right, use the Phase 1 button or reply "go," and I will send a short agreement and the list of logins. Call me with anything you want changed.
